

BENEFITS OF TABLETS FOR MOBILE COLLABORATION

Enterprises are turning to mobile apps to enable workers to be productive anywhere, anytime following the BYOD movement, as tablets are transforming the nature of work.

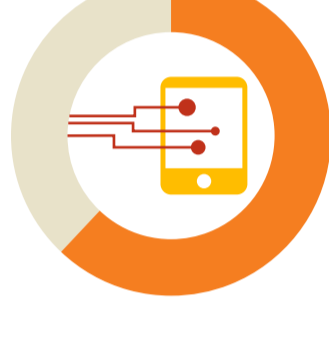

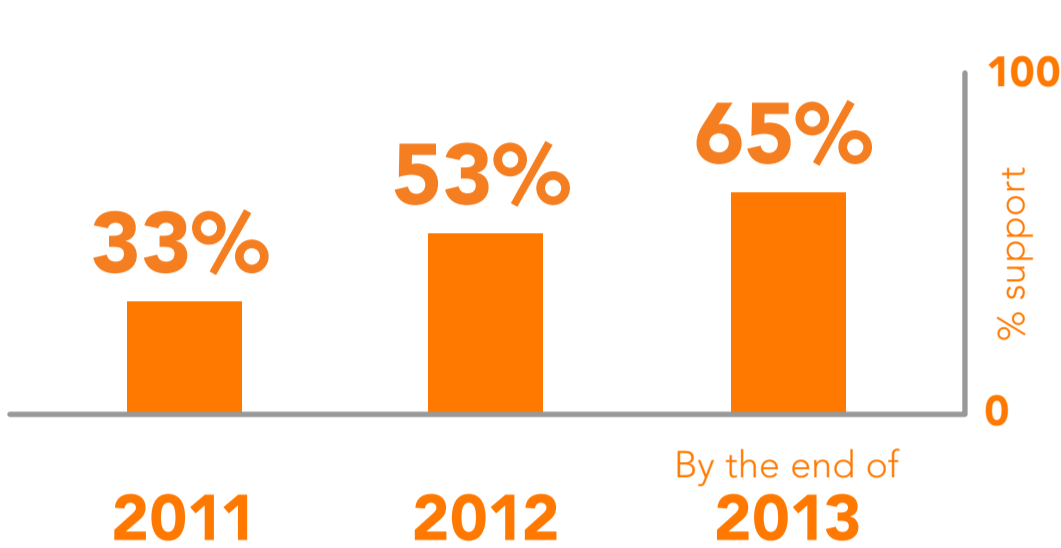

Over **19.7M tablets** are expected to sell in 2013

Gartner predicts **665M tablets** will be in use by 2016

Tablet support on SME networks is continually growing.

Of the SMEs that support BYOD

62%

support tablets

72%

of mobile workers believe personal devices should be work enabled

79%

of mobile workers personally own their own tablets

This is up from **74%** in 2012

84%

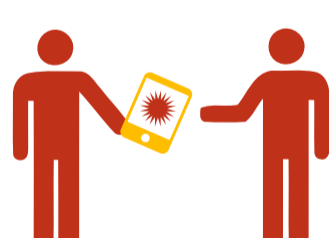

of survey respondents said tablets improve their multi-tasking

On average tablet users gained **1.1 hours in productivity** daily

Tablets are ideal for many work situations:

Executives can use tablets to power presentations

Salespeople can use tablets to show customers new products and place orders in real time

Across all levels, workers can set up conferences and easily collaborate to share documents, give presentations or share applications on the go

Field Service workers can use tablets for troubleshooting or remote monitoring

Workers can take advantage of collaboration on their Apple iPad and iPhone with ShoreTel Mobility and ShoreTel Conferencing that turns Apple iPad into a business communications tool, enabling integrated collaboration capabilities, increased accessibility and improved communications. With ShoreTel Dock, their Apple handsets running the ShoreTel Mobility app can be transformed into powerful business desk phones and enterprise collaboration tools as they can slide their device into the ShoreTel Dock and get instant access to the comfort, battery life and call quality of a business desk phone.
