albert einstein once wrote the supreme task of the physicist is to arrive at those universal laws from which the cosmos can be built up by pure deduction remarkably in this book we arrive at those universal axioms from which universal science can be built up by pure deduction within the prevailing paradigm of science the mathematical philosophy of nature we show it is not possible to unify science to overcome this limitation we introduce a new more general paradigm since the new paradigm is a generalisation of the mathematical philosophy of nature we are able to retain

the mathematical knowledge built up within the prevailing paradigm within the new paradigm we introduce four empirical universal axioms from which we deduce that it is not possible to mathematically unify the two fundamental theories of physics quantum theory and general relativity instead from the universal axioms we logically deduce the first symmetry of nature the first invariance of nature the universal arrow of time the universal laws of nature and the three universal dynamic theories of nature quantum theory general relativity and universal evolution the first symmetry of nature and first invariance of nature arise from the constancy of the universal laws of nature not only being a symmetry but a unifying symmetry the biological view of universal evolution provides a new theory of biological evolution that replaces what we show is the deficient neo darwinian synthesis in a similar way theories of evolution in all the sciences are based on their respective views of universal evolution from the universal axioms we deduce the universal features of nature thereby unifying physics chemistry biology psychology sociology economics and all of science this book is written for scientifically inclined general readers teachers students scientists philosophers physicists chemists biologists psychologists sociologists and economists

change is the most important principle of life everything that we wish to happen or we want to achieve begins with making changes in particular actions and this book is all about the same there are people who dare and live their dream lives and they make it happen because they know the power of the fundamental laws of life they understand that these laws are always working for everyone i am really happy and grateful to present this book to you all simply as i want to see the great change in your lives so this is an initiative that i have taken as my responsibility this book is not so unique but it might surely be a simple guide for everyone who really wants to make their dreams come true wish you all the very best love you all and thank you so much once again

spinoza and moral freedom guides the reader through spinoza s principal ideas and powerful lines of reasoning clearing up obscurities along the way while acknowledging the genuine difficulties and gaps at the same time it neither intrudes the author s own beliefs and personality upon the reader nor gives instructions on what the reader s own final judgment should be what kashap offers is pure spinoza rather than a spinoza reformed in light of another person s wishes or preoccupations in this respect kashap s approach is refreshingly new and unique the style is graceful and lucid and in no way obscured by philosophical jargon

i had a dream that foretold the writing of this book in the dream the pages of the book were glowing golden light over the next few years during mediation the information in the golden light path teaching became revealed the teaching has no religious position the purpose of the golden light path teaching is to help you find your own truth to walk a path of spiritual growth the essence of the wisdom of the golden light path teachings is

already within the heart of each soul now on a journey on the physical earth plane this is so because we all were created in the image of god this knowledge has been within the threads of the fabric of every major religion and culture it is now time for humankind to receive this message in a new format the purpose of the teaching in this new format is to awaken that wisdom within you which is now lying dormant in the subconscious mind of your soul regardless of what belief system you have if you will open your heart and mind and entertain the possibilities that come to you through the golden light path teachings and then make your own decisions you will find your own truth you will experience an awakening that you did not know existed

some christians claim to be able to heal the sick and even raise the dead some people applaud this while others are skeptical are these healers using the power of god are they faking or is their power from satan and what about nonbelievers who also claim to perform wonders are they tricksters or agents of the occult can we believe their claims about past lives seeing the future ufo encounters and spirit channeling norman l geisler takes a sane and solidly biblical look at miraculous healings and other amazing phenomena today with penetrating insight he constructs guidelines for judging whether any so called miracle is truly from god or from the realm of the demonic signs and wonders also includes material on speaking in tongues and on the use of objects in faith healing in addition geisler looks carefully at the clever trickery that charlatans use to dupe and swindle people he shows that what often passes as supernatural can be explained as merely unusual here is a book for anyone who wonders about the power and the sincerity of those who claim to be wonder workers

you have more power than you will ever know it has been said that humans only use a small fraction of the minds ability what if you could unlock that unused potential and open the doorway to your dreams what if you could make that your reality author shahryar sadrees higher powered a book of powerful secrets to finding happiness takes you on a journey to open your mind awaken the spirit and unfold the real truth as to who you really are from there you will learn what it means to have power and your life can change forever sadree pieces together historical events science and his own discoveries to pave a way to a better understanding of human behaviors he discusses the necessity of changing how we think to achieve a truly happy life in down to earth language and a friendly tone the author delves into why we think the way we do before embarking on the difficult yet achievable task of changing how we think most of us have no idea how much power we have as creators inside a human body higher powered a book of powerful secrets to finding happiness helps you find that power and use it optimally
