coupland takes readers on a web surfing inspired ride through alcatel lucent one of the largest global telecommunications companies in the world

if it is indeed impossible to think beyond capitalism then capital has become reality if global capitalism organizes reality through the stories it weaves capital is as strong as its fictions if capital is reality and capital is fiction then reality as such is fiction as well it is by reading this fiction for both patterns and inconsistencies that contemporary individuals can challenge global capital and unveil its hypocrisies and it is by fighting fiction with fiction i.e. projecting new realities such as those in the post millennial novels by william gibson douglas coupland and dave eggers that people can imagine the world anew

when the bell telephone company built their new research facility in 1957 they did not opt for a functional box but for a cathedral of glass steel and concrete set in a meticulously landscaped park what can we learn from this striking corporate architecture through which architect eero saarinen expressed that man had mastered nature and would solve all future

problems what can churches learn which have also built striking concrete structures throughout the 1960s buildings whose roofs are now leaking and whose heating systems are no longer operational christian preidel argues that building today is not a symphony in glass and concrete but a social endeavour where people and material come together

this book responds to key issues in strategic management control by studying the interplay between strategy operations finance and controls grounded in research but written with practitioners and students in mind it addresses the most up to date management control issues in the public sector forecasting budgeting and controls in international organisations

infoworld is targeted to senior it professionals content is segmented into channels and topic centers infoworld also celebrates people companies and projects

douglas coupland one of the world's biggest cultural brains takes an inside look at the global company that keeps us connected and wonders what all that connectivity is doing to our brains and our sense of ourselves as humans the incomparable douglas coupland reports from inside the corporate offices and science labs of alcatel lucent a globally influential business whose work is largely unknown to consumers were it to vanish tomorrow he writes our modern world would grind to a halt the internet would implode your internet would implode although his examination of the company is playful and fascinating in its own right coupland's account is driven by his thoughtful reflections on the larger cultural and sociological significance of the transformative information technology alcatel works on fiber wire microprocessors the internet and mobile technologies and by a larger meditation about what the internet is doing to us as it relentlessly colonizes the planet and our brains like coupland's best work kitten clone is a wildly entertaining yet penetrating encounter with the technological and cultural forces that surround us and also a surprising and unique exploration of a possible future

this book constitutes the refereed proceedings of the 7th international conference on wireless algorithms systems and applications wasa 2012 held in yellow mountains china in august 2012 the 24 revised full papers presented together with 32 invited papers were carefully reviewed and selected from 116 submissions the papers cover a wide range of topics such as cognitive radio networks cyber physical network systems mobile handset networking systems underwater and radar wireless networks and wireless and mobile security

making media theory is about the study practice and hands on design of media theory it looks at experimental research methods and engages in media analysis inviting readers to respond to and shape the materiality of media while carefully considering the implications of living in a technoculture the author walks readers through the creation of digital objects to think with where

critical design practices serve as tools for exploring social and philosophical issues related to technological being and becoming indexes the times sunday times and magazine times literary supplement times educational supplement times educational supplement scotland and the times higher education supplement

this book concentrates on the strategic role and importance of production operations enabling the firm to be competitive in global markets the first chapter on strategic issues provides an important framework for the rest of the book human resource management and new product development are given chapters of their own and the chapter on manufacturing strategy provides an exhaustive discussion of key areas endorsements there is no single text that i can think of which is as soundly written on the subject as this one the perspective is clearly based on 20 20 vision the toolkit is knowledgeably and freshly laid out and the supporting evidence described by a person obviously and freshly laid out and the supporting evidence described by a person obviously master of his subject dr tom mullen strathclyde graduate business school university of strathclyde a timely book which is a step ahead of competing texts by demanding proper consideration be given to production and human resource operations in the top planners inner sanctum this text demonstrates how to achieve competitive and desired results strategy and tactics are rarely so thoroughly examined in a way to help the manager and employer alike to meet the new global challenge of the 21st century dr manton c gibbs professor of strategic studies international journal of commerce and management
